Chief Complaint

pt sent by cancer center for R foot having no pulse. mass on iliac artery that is pressing on it.

History of Present Illness

53 yo female with a history of ovarian cancer, anal squamous cell carcinoma, COPD, Hepatitis C, HTN, and HLD presents to the ED from the cancer center after they were unable to palpate pulse in the right foot. She states that she was told that her feet were cold and reports that she also has some pain in the foot. Patient notes that she has a mass on her iliac artery that is pressing on it and her oncologist was concerned and instructed her to come to the ED. Pulse was found using Doppler.

Review of Systems

constitutional: no fever, no chills

skin: no jaundice, no rash

eyes: no recent vision changes

ENMT: no ear pain, no sore throat

respiratory: no SOB, no orthopnea, no cough

cardiovascular: no chest pain, no palpitations, **RLE pain and swelling, concern for no pulse.**

gastrointestinal: no abdominal pain, no nausea, no vomiting, no diarrhea

genitourinary: no dysuria, no hematuria, no discharge

Medical Decision Making

History obtained from: Patient
Was EMS report reviewed or case discussed with EMS: Patient arrived via Private vehicle.
Prior Hospital notes or office notes reviewed: None
Comorbidities: Ovarian cancer, anal squamous cell carcinoma, COPD, Hepatitis C, HTN, and HLD
Differential Diagnosis: Lymphedema, Arterial occlusion
Home Medications Reviewed: I reviewed the patient's home medications
EKG: not performed
Labs: not performed
Radiology: Reviewed ultrasound
Consultations:

5/2/2023 16:01:42 Updated Dr. Littles on pulse heard on Doppler in the foot.

Date and Time: 5/2/2023 16:04:07

Provider: Dr. Johnson

Department: Surgery

Recommends: He will review arterial ultrasound when completed.

5/2/2023 17:28:11 Dr. Johnson reports ultrasound is normal and patient can be discharged.

Clinical Course: Patient is a 53-year-old female who was sent to us from Dr. Fred Littles and radiation oncology. He called and talked me and stated the patient had a swollen right leg and a cold foot and they could not palpate pulses. She is being treated for ovarian cancer and a large mass in her pelvis. Upon arrival went into evaluate the patient and her staff brought Dopplers then. We are able to Doppler a good dorsalis pedis pulse in the right foot. Foot was cold however the left foot was also cold. We spoke with Dr. Mark Johnson is a vascular surgery we will obtain a arterial ultrasound which she will review once it is done. Once ultrasound was done Dr. Mark Johnson, he said that the patient had normal blood flow. We initially discussed the possibly doing a
